

Residential **aged care** Integration Programme

Acknowledgements

These Care Guides were originally developed in 2007 under the leadership and vision of Helen Frances General Manager and Dr Michal Boyd Nurse Practitioner and Clinical Leader. They are the result of the collaboration between the Waitemata DHB Gerontology Nursing Service, Older Adult and Home Health Services, and leaders and clinicians working and practicing in residential aged care. Without their support and hard work the development of these Care Guides would not have been possible.

This is the third edition of the RN Care Guides. The Residential Aged Care Integration Programme would like to thank the Older Adult and Home Health Operations Manager Sue Skipper and the Residential Aged Care Integration Programme 2012 Review Group for their support, enthusiasm and expertise.
